5 In October 1922 when the Chief Inspector of Mines had submitted the same proposals for orders of Govt involving an additional cost of Rs 324 per annum, the Financial Secretary stated that any revision of menial establishment without entailing additional cost might be permitted. On further correspondence the Chief Inspector of Mines suggested that provision under the head contingencies might be reduced by Rs 200/- to meet this additional cost & that attempts would be made in future years to.

further reduce the expenditure with contingencies to meet the entire cost. As no provision had been made for the two additional Peons in the budget of the current year the proposal was vetoed for the time being.

(Flag D.) paras 25 to 32 of notes in Genl file no 41-22 N

5. In the official memorandum dated 21-5-23. instructions have been offered to the effect that the main object of revision of menial establishment should be reduction of expenditure.

7. The cost of the menial establishment proposed is given below. If it is considered necessary to reduce the cost of establishment proposed, certain alteration in the proposal made is suggested for approval or other orders.

Existing menial establishment as 8 peons at 11+1 LA each Total cost per annum is Rs 1152/- p.a.

Establishment proposed by the Ch. Insp. Mines.
1. Daffadar 14+1 L.A.
9 peons at 11+1 LA.
Total cost per annum is Rs 1476/- p.a.
Excess 1476 - 1152 = 324/-

Alteration suggested for approval or other orders.
1 Peon on 12+1 L.A.
7 Peons on 11+1 L.A. each
2 " on 10+1 LA. each
Total cost per annum is Rs 1428/- If eight peons are given the same pay (of Rs 11+1 LA. each) as they are getting at present, there will be a further saving of Rs 12/- p.a.

8 As it is not known whether the above suggestion has been acknowledged or not, a draft acknowledging the receipt of the same is submitted herewith.

31-7-23. 1-8.

10 There is no doubt that the Chief Inspector's demand is for

NOTE—Contn. sheet.

Serial No.

the absolute minimum requirements. But it will be observed that, instead of being a case of reduction of the cost of normal establishment, the question is one of addition to the normal establishment involving recurring expenditure for which no provision exists in the budget Estimates as sanctioned now

(1) If 10 men are necessary additional cart cannot be provided except by fixing the pay at lower rates. As the Chief Inspector's proposals have either to be deferred consideration till budget time next year or a small additional grant made at once to the extent of Rs 288 which will enable him to entertain 2 additional hands at Rs 11+11 each.

(2) The difficulty is that the additional office clerk applied for cannot be obtained by transferring the peon given to the Inspecting Mukhtiar for work at the office. There are 2 peons at the office headquarters one in attendance at the office on the Chief Inspector and there 3 should be sufficient for office work. It does not appear possible to suggest any other course.

DIARY NO 5807

DEPARTMENT OF MINES & EXPLOSIVES.

Office of the Chief Inspector of Mines in Mysore.

Oorgaum, dated 20th June 1923

Section. Gen.
File No. 17-23
Serial No. 3

D.O.No. 1994 E1

Dear Mr. Raghavendra Rao,

Following the interview you were kind enough to grant me on the 22nd ult. and the discussion we had on the subject, I now beg to resubmit the original proposal sent to Government - No.605 dated 14-10-1922 - regarding the increase of the menial establishment attached to this Department (Office of the Chief Inspector of Mines in Mysore. K.G.F.. Oorgaum).

From this you will observe that the proposals are of a very modest nature, involving only a small increase in the permanent establishment charges amounting to Rs.324/- per annum, which can be met from the budget grant to this Department for the official year 1923-24 under the head "savings in salaries - officers".

The object in asking for this increase in the menial establishment is twofold - firstly to try and give each gazetted officer at least one personal orderly, which is a necessity, and secondly to provide for a permanent night-watchman at the office instead of utilizing the ordinary staff of peons daily doing duty there. There is a cash-chest (safe) in this building containing Government money, etc., and other chests, almirahs, etc., with Government property in them. Can a peon, who has been working most of the day, be held responsible for this property which he is supposed to guard at night ? It hardly seems fair, but this is at present the case

After considering the matter, I trust you will see your way to recommend the proposal for early and favourable orders of Government, the need being a very pressing one.

Yours sincerely,

K. Bacquet.

Rajamantrapravina Dewan Bahadur
P. Raghavendra Rao, Esq:, B.A., B.L.,
First Member of Council,
Bangalore.

Letter No.605 dated 14th October 1922 from the Chief Inspector of Mines in Mysore to the Chief Secretary to the Government of His Highness the Maharaja of Mysore, Bangalore.

----: oOo :-----

With reference to your letter No. O. 2070/G.M. 42-22-3 dated 10-10-22, forwarding a preliminary statement of the reduction of the menial-establishment of this Department now under my control, I have the honour to return the statement with my proposals (which were ready for submission to Government but held over to await the deliberations of the Special Finance Committee in the matter) for the final orders of Government with the required details. The proposals made are strictly in accordance with the recent Government Order in question and claim the favourable consideration of Government.

2. Since the formation of the Department of Mines & Explosives (latter branch since abolished) into a separate Department in G. O. No.G.7041-7100 Geol. 69-18-11 dated 18th September 1919, the work of the Department has grown enormously, the number of gazetted officers has increased and the limited jurisdiction of the Department has been extended to the whole State. In consequence, the officers of this Department have become touring officers with Provincial jurisdiction. But, to cope with this increased activity, a sufficient number of menials is absolutely necessary and has not yet been provided and therefore the present request for the sanction of an addition of 2 peons is only a very modest proposal.

3. Eight peons were sanctioned to this office in G.O.No.12888-89/Geol. 6-15-8 dated 15th March 1916 and they were then allocated as follows:-

Chief Inspector of Mines	..	3
Inspector of Mines ..	..	2
Sub-Inspector of Mines	..	1
O f f i c e	..	2
Total	..	8

4. But since the reorganisation of the Department of Mines & Geology, the Mining Department has 4 gazetted officers and according to the principles enunciated in G.O.No.1629-92/44-22-1 dated 11th

September 1922, the following orderlies will be required:-

	Residence	Office
(1) Chief Inspector of Mines .. .. Head of the Department para 3 (f) of the G.O.	3	1
(2) Inspector of Mines	1	1
(3) Asst. Inspector of Mines ..	1	-
(4) Junior Inspector of Mines ..	1	-
(5) Office	-	2
Total ..	6	4
		10

These numbers are the minimum mentioned in the recent Government Order referred to above.

5. It has been found in practice that the small number of 2 peons attached to the office is quite inadequate to cope with the increased work and, without exception, the orderlies of the Inspectors of Mines are drafted for work in the office in addition to their usual duties. Further the duties of these office orderlies do not cease when the office closes for the day; they have to do night duty as well, alternately, to guard the cash-chest (safe) in the office. Following on the policy of strict economy, a separate night-watchman -- a long felt want - was not entertained and the ordinary peons are forced to share that duty after their day's work is over. Under these circumstances, the reduction proposed is not compatible with the increase that is actually required to carry on the work of the Department, nor will it make for the efficiency or future smooth working of the Department.

6. This number of 8 menials was fixed and allocated in the year 1916 when this Department was only a subordinate branch of another Department and this number (8) has not since been augmented though the subordinate branch with local jurisdiction has developed into an independent Department with Provincial jurisdiction. The present proposal for the grant of an addition of two peons is absolutely necessary, as can be seen from the details furnished in para 4, and was only

delayed

delayed in being submitted to Government in the hope that the requirements of the Department would not be overlooked.

7. Out of the 10 peons required, one should be a Daffedar on Rs.14/- and the rest may be on Rs.11/-. The financial aspect is not involved, as the small increase that may be necessary can be met by reappropriation of the already sanctioned grants. The cost of the present proposal will be Rs.1,476/- as noted in the margin, of which Rs.1,152/- are already provided under this head in the current year's budget and the excess of Rs.324/- can be met by re-appropriation from the savings expected under "contingencies".

1 Daffedar	Rs.14/- plus 1 L.A. - 15 per mensem	
9 Peons @	Rs.11/- plus 1 L.A. - 12 x 9	
	= Rs.1,476/- per annum	
Sanctioned grant		Rs.1,152/-
		Rs. 324/-

8. I therefore request that Government may be pleased to sanction the proposals submitted at an early date.
